### **Part III DETAILED ACTION**

#### ***Notice to Applicant(s)***

1. This action is responsive to the following communications: amendment filed on February 03, 2005.
2. This application has been examined. Claims 1-4, 6-7, 9-15 are pending.

#### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. § 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-3, 6 and 12, are rejected under 35 U.S.C. § 102(e) as being anticipated by Berglund et al. (US No. 6,199,130) in view of Byers et al. (US No. 5,422,915).

In regard to claims 1, 12, Berglund et al. disclose a disk enclosure comprising a first bus (104A) coupled to the plurality of elements 105A (see figure 1, col. 4, line 57 through col. 5, line 56); a second bus 104C coupled to the plurality of elements 105B (see figure 1, col. 4, line 57 through col. 5, line 56); a first controller 107 coupled to the third bus (see figure 1, col. 4, line 57 through col. 5, line 56); and a first multiplexer 106 operable to selectively coupled the first or the second bus to the third bus so the first controller can communicate with the first or the second plurality of elements (see figure 1, col. 4, line 57 through col. 5, line 56). But Berglund et al. do not specifically disclose the plurality of elements powered by the first power domain and second power domain. However Byers et al. disclose the plurality of circuits powered by the first power domain and second power domain (see figure 5, col. 10, line 35 through col. 11, line 18). Therefore, it

would have been obvious to a person of an ordinary skill in the art at the time the invention was made to have combined the teachings of Byers et al. within the system of Berglund et al. because it would allow concurrent maintenance of PCI based DASD.

In regard to claim 2, Berglund et al. disclose wherein the first, the second, the third buses are I2C buses (see figure 1, col. 4, line 57 through col. 5, line 56).

In regarding of claims 3, 6, even though the teachings of Berglund et al. do not specifically disclose the elements 43-48 as the first temperature sensor, memory, backplane controller, however one skilled in the art would have understood that they can choose to implement different type of elements to fulfill their need.

#### ***Allowable Subject Matter***

5. Claims 4, 7, 9-11, 13-15 are allowed over the prior arts of records.

#### ***Response to Arguments***

6. In view of remark filed on Feb 3, 2005, claims 1-3, 6, 12 have been fully considered but they are not deemed to be persuasive.

In response to applicant's argument that the combination of Berglund et al. and Byers et al., the fact that applicant has recognized another advantage which would flow naturally from following the suggestion of the prior art cannot be the basis for patentability when the differences would otherwise be obvious. *Ex parte Obiaya*, 227 USPQ 58, 60 (Bd. Pat. App. & Inter. 1985).

In response to applicant's arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413,

208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

**Conclusion**

7. Claims 1-3, 6, 12 are rejected. Claims 4, 7, 9-11, 13-15 are allowed.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
